The need for a seamless onboarding experience

Employee experience and retention should be considered from day one.

With global trends such as the Great Resignation still at large, it has never been more important to ensure you can not only find, but also onboard new talent as quickly and efficiently as possible.

Research shows a strong onboarding experience can improve employee retention by up to 82%.

With a reported 33% of employees also starting the hunt for a new job within their first six months in a role, it's crucial to ensure all the hard work you've put into finding the perfect candidate doesn't go to waste.

The most successful businesses have a thoughtful, well-planned onboarding strategy. One that leverages technology to remove paperwork, build customised experiences and automate the entire process.

Thankfully, Roubler's all-in-one workforce management software provides businesses with just that.

Customised workflows

End-to-end automation

Live progress tracking

Quicker and more efficient

Challenge 1: Legacy systems and processes

Speed, efficiency and accuracy should be key considerations when managers are looking to onboard new employees.

Unfortunately, many still onboard new employees using dated systems, numerous emails, or worse, rely on receiving physical copies of paperwork.

All too frequently, this results in the hiring manager having to chase for additional, missed or incorrect information.

As a result, the first impression your company is making to the new employee is lacklustre and the hiring manager is burdened with additional pressure.

Challenge 2: Compliance data that doesn't sync

It's a common misconception that compliance starts at payroll. In truth, it starts at onboarding, if not before.

Onboarding is your first (and best) chance of recording crucial employee data that will form the backbone of your business and its ability to meet compliance obligations.

Despite this, many businesses rely on disparate systems and processes for different stages of the employee lifecycle.

This results in data being lost or not recognised at crucial points such as rostering or payroll. Blunders like this can easily result in compliance breaches.

Challenge 3: One size fits all approach

Different roles require different qualifications, skills and certifications.

Similarly, different locations require different licences, have different rules and different policies they may wish to make new employees aware of.

Yet, when onboarding, many businesses use the same workflow for all employees, regardless of their role or location.

This 'one size fits all' approach can lead to vital information being missed or lost, compliance issues forming later on, and more generally, a confused employee experience.

Creating efficient onboarding practices for a great employee experience

End-to-end automation

Roubler's employee onboarding software automates the employee onboarding process without the need for paperwork or manual data entry. Thanks to our all-in-one workforce management system, all data flows seamlessly to scheduling, time & attendance, payroll and beyond.

Compliance embedded from day one

With Roubler, compliance doesn't just begin with payroll, it's best practice embedded throughout your business. During onboarding, managers can mandate that new employees in certain positions or locations supply specific documentation or qualifications. These requirements synchronise through to the roster process and will block any employee from working a shift unless they meet the requirements. As a result, it helps you avoid instances of non-compliance from day one.

Multiple and custom workflows

One size doesn't fit all when it comes to onboarding new employees. Roubler recognises that businesses can operate over different locations and different positions may have different requirements. That's why we enable you to create as many different workflows as you require which are all completely customisable to your employees' needs.

Live progress tracking

We understand how important it is to get your employees up and running as smoothly, and as quickly as possible. Roubler's onboarding function has live progress tracking, so you can monitor your new employees progress, recognise if they are stalling and jump in to help them where possible.

Customised training for employees

With Roubler, you can incorporate employee induction training into onboarding, to help new hires prepare for their role. You can build out a training program that includes video content, documents, and other course content to ensure employees complete the necessary training before their first shift.

Data integrity risks eliminated

With no need for manual data entry or messy integrations, Roubler eliminates the risks associated with poor information integrity. Having one source of truth for all workforce-related information provides crucial clarity and ensures data is error-free. Being an all-in-one solution, Roubler ensures this data flows through every aspect of the employee lifecycle, from the time an employee is onboarded to when they are rostered, and eventually through to payroll and beyond.

One seamless system. Business-wide impact.

Roubler enables business-wide efficiencies by bringing together everything you need to recruit, onboard, schedule, manage and pay your staff in one seamless system.

Roubler + Nottingham Ice Centre Ltd success story

Nottingham Ice Centre has cut payroll admin and benefited from accurate labour efficiency data, with Roubler's all-in-one workforce management system.

With five venues across the UK, the Nottingham Ice Centre Ltd needed workforce management software to streamline processes and enable data visibility. Roubler has provided deeper insights into workforce costings and labour forecasting, while significantly reducing the time spent on admin and payroll.

With no centralised system in place, workforce management was a constant challenge for the Nottingham Ice Centre Ltd team. Frustrated with inefficient systems and processes, the team turned to Roubler to help them create efficiencies across the business.

The positive impact was immediate. Streamlined processes, built-in expense claims and smart scheduling alleviated the administrative burden – with payroll taking two days, rather than the best part of a week to complete.

The intuitive and user-friendly interface provides a convenient way for staff to view upcoming shifts as soon as they are published, as well as ensuring they have access to pay slips, availability and policies.

With Roubler, the Nottingham Ice Centre Ltd team gained new visibility over event costings. Being able to see forecast versus actual spend was incredibly powerful, enabling better forward-planning while also helping the team adapt as last-minute changes arise.

The mobile app also makes communication with staff more efficient – enabling flexibility as staffing requirements fluctuate and change.

All-in-one workforce management

Roubler is a unique workforce management solution trusted by businesses all over the world including Estee Lauder, WHSmith, MUJI and MAC.

We'll help you to recruit, onboard, schedule, manage and pay your staff, all while providing data clarity and real-time analytics across every aspect of your workforce.

We bring you true peace of mind, knowing that Roubler's always-on compliance and risk management tools are with you every step of the way.

By harnessing the latest AI, machine learning and automation we are providing a new depth of insight and intelligence, and shaping the workforces of tomorrow.
